

The Geometry of Good Government

Good government is *our* responsibility.

It is also a wonderful opportunity.

Public Justice Education is available for the first time in history, because of the internet, its free legal research resources, and **Juris**dictionary®.

You have power never before available to the People, power that's been hidden from you and your children for generations by a profession that has refused over the years to make any genuine effort to share the simple Rules of Court that give that power to anyone who will learn a simple set of rules.

We can no longer trust politicians who care more for their party than for US. We can no longer trust that candidates with the most money to spend on advertising are the ones who will serve US, the ones who understands the Fundamental Principles of our American system of Law and Order, the ones who will stand against tyranny in all its forms, the ones who share our view of morality, economics, and our need to be protected from our enemies – both foreign *and domestic!*

We *need* government ... good government ... government that serves our needs.

And finally you have ***Power to control your government with more than a vote!***

The Rule of Law, due process, and the Rules of Court give you that power.

Learn how to demand the right to be heard, to call witnesses, to present evidence, to make a public record of your grievances, and force your government to provide the services your taxes have been paying for ... *without having to hire a lawyer!*

Promote Public Justice Education.

Promote **Juris**dictionary®.

Get *your* Power now!
