## **The Light of Liberty's Lamp**

Darkness shines into every aspect of our lives these days.

We do not see it, because it is darkness.

We see only its avoidable consequence: waste, ruin, the cries of children, mothers' tears, confusion, division, and the blood of soldiers spilling endlessly in foreign fields.

We are intrigued by darkness. We revel in it. We hide in it. We perpetuate it by refusing to see the Light God set for us on Calvary's Hill, thinking that what happened there is "just religion" and religion no longer relevant in modern time.

We've let religion rob us of that Light ... Light that ages past could have guided us to establish better governments dedicated to the Rights of the Common Man, Equality for All, guided by wisdom that knows that protecting Innocence is the Principal Principal, the First Justification for the Creation of Governments.

Religion has hidden Calvary's Call to Action.

Religion has done this by the self-interested motives of its myriad organizations that ignorantly compete over non-essentials. What religion could have done for humanity (and could yet do) has been abdicated.

So now we act in concert with each other to restore that Light ... the Light that drives darkness into hiding.

The Light that calls us to Unity, Equality, and Justice is guided by Love and Wisdom that remembers and, by remembering the past, can see the years ahead.

We lift that Light so it may shine through the darkness that threatens us today as it has threatened humanity throughout history ... causing wars and the disease of dissension that has always hindered our progress toward Peace.

However dimmed by the persistent darkness of this age, that Light still burns in the hearts of some of us. It is our yearning to be free, to be at peace, to enjoy the blessings of Liberty, and to know our loved ones are safe.

We yearn to be governed by goodness.

We yearn to be free from the madness of politics.

We yearn to be led beyond backbiting bitterness and political insanity.

We yearn to restore the fabric of Faith that knows a People United can, indeed, move mountains and drive every form of darkness from our midst.

We yearn for every one of us to agree forevermore that God's Reality cannot be compromised ... that our actions and failures to act have consequences decided by an Unseen Hand that will not be dissuaded by our wishful thinking, majority vote of leadership, violent protest, nor the demand of those who insist Truth be whatever they wish it to be.

We yearn to be equal to each other, instead of competing and forever finding fault, as if finding fault could make things better.

We yearn to live in a world where we love each other truly ... one-to-one with generosity and kindness and also through the mechanism of good government guiding us to cooperate for the good of all, promoting Peace and Prosperity for ourselves and our posterity.

The Light of Calvary shines so all mankind may heed the Call of the Cross, to turn from the darkness of lies in all their forms, to know Truth and set our hands and minds to the work that always overcomes darkness when shared in Unity.

Darkness has many names: Division, deceit, dissension, duplicity, denial, and all that tears us apart when we could be united at last, working for Peace, protecting innocence, transcending the trappings of religion to Trust in God as the very Reality in which we live and move and have our being.

By using the mechanisms of Justice, we compel our politicians to work for our common good (and not that of either party), remembering the Price Jesus paid to show us all what in-justice is and call us to work together for Peace by Justice.

We promote Peace and Prosperity by publishing the Rules and Principles of Justice for EVERYONE to EVERYONE ... *absolutely EVERYONE*.

The sacred principles of Justice have too long been the merchandise of men and women of the Bar who have, intentionally or perhaps negligently, hidden those sacred principles so they can rule our courts and legislative bodies, leading us

ever farther from the Light that should be guiding all governments away from the darkness that only Justice can completely overcome.

Darkness will no longer impede our progress toward Peace and Prosperity.

We lift this Light now and drive into hiding the darkness that is threatening us and our children in this hour when madness seems unleashed upon us by the very forces we can and will dispel together.

We overcome together, one People, one Nation dedicated to Justice for ALL!

Ignorance can no longer rule us, as it has in ages past, nor can it restrain us now from working together for the Good of All, guided by the age-old principles of Justice that each of us can learn and share today.

We wait not for others to do what WE *can* do today!

We *are* America! We stand in the gap for the innocent. That's who we are.

Now we teach the Rules and Principles of American Justice to ourselves and to our children, sharing its Power with neighbors, friends, and all this wounded world too long defeated by darkness.

We go to work today!

Every age has had its word workers, unheralded warriors lifting Liberty's Light, keeping Hope alive in the hearts of the working masses, writing and speaking for government that governs, not government that rules.

The Light of Liberty is Justice ... Wisdom and Love working together in law.

Justice Education is no longer the exclusive province of the Bar and its law schools, where legal scholarship refuses to acknowledge Calvary's Call, where the Reality of God is ignored, where justice is whatever nine people say it is.

We Americans are free at last to enjoy the blessings of Liberty, with Justice for absolutely EVERYONE, not merely for the few who can afford to hire lawyers.

We secure for our children a world where every one of us is truly equal in the eyes of our laws, where equality has meaning, where innocence is protected.

That dream once vibrantly alive in former generations is threatened today by the pressing tide of a deepening darkness that we turn aside by lifting this Light.

The Light is Truth.

The Lamp is Liberty.

The Method is Justice Education for EVERYONE ... *absolutely EVERYONE!*

Not merely How to Win in Court with its rules of procedure and evidence, but the underpinning principles of Common Law that protect the Common Man, We use our Justice Knowledge to protect innocence from the collective will.

We now remember our first love, the soul of who we are as Americans.

We revive the dream of self-government under God, where each of us has an equal opportunity to succeed, because Justice and its Rules are *known by ALL*.

Many have begun, encouraging others to see that Justice is indeed the Golden Path to Peace and Prosperity for us all, the Eternal Goal of Mankind.

Justice was ignored at Calvary. Jesus was murdered by the highest Judges of Israel, who perverted the law saying, "It is better that one innocent man die than that the nation be misled by this carpenter who challenges our authority to rule."

That *is* what their motive was ... self-interest, the serpent within us all.

Governments are perverted by self-interest when they refuse to recognize the call of Mankind's Friend hanging on those hateful nails, calling us to join as One in Progress toward Peace and Prosperity by promoting Justice Education for EVERYONE!

Religion has nothing to do with it.

Justice is Calvary's Call. None can dispute this!

Justice is our God-given right *above all others*, for it alone secures our rights.

Justice ... without cost, without contention, without compromise.

We will take Justice Education from the Bar and its law schools and teach it to our children in homeschools, private schools, and soon in all our tax-supported public schools.

We teach Justice everywhere.

Justice ... this Golden Treasure *that belongs to the People, not to the Bar!*

Equality under law means *nothing* when our Common Law and Rules of Court are known only by men and women who make it merchandise for sale, their franchise stock in trade, their closed monopoly.

Equality under Law is our goal.

The symbol of Justice is a balance where both pans are held in equity.

The symbol of in-Justice is the Cross.

Innocence must be protected by government ... by our government here in these United States today and by every other nation on this planet.

Innocence must never be sacrificed for the good of the collective. That was the lie motivating those Judges in Jerusalem to inveigle Pilate to nail Jesus' hands and feet to that bloody cross.

The will of the collective must never outweigh the rights of innocence.

Words are our weapons.

With words we win what cannot be won by swords alone.

Innocence is protected by the faithful exercise of Justice that abides by the Common Law and Rules that favor none above another.

We act for the good of all mankind, remembering the Sacrifice at Calvary and honoring the sacrifices of the millions of soldiers who fight and die still for the as-yet unrealized dream that is America.

Liberty and Justice for absolutely EVERYONE, according to The Rule of Law, with Faith and Unity, lifting this Common Cause together.

Justice Education for EVERYONE.

For the first time in history, we have the tools of technology to do this, tools that never before existed, tools to easily provide Justice Education for EVERYONE.

We act for the sake of innocent children who otherwise would inherit the cruel consequence of our present failure to act.

We do what long ago should have been done.

We lift Liberty's Lamp by providing Justice Education for EVERYONE.

**Tell EVERYONE to Tell EVERYONE.**
