

A Better World

We who wish a better world might consider some advice from Jurisdictionary® and, hopefully, SHARE this advice with others if you agree.

We need to be asking ourselves and our friends and even our enemies, "What's MOST important?"

What's most important right now, at this present time, in this moment of crisis when the leaders of your nation seem to have gone off the rails of "Traditional American Values and Principles of Justice".

The "Power of the People" is The Rule of Law and due process.

That is the ONLY power of the people.

If you understand, PLEASE TELL OTHERS and put an end to the stupidity that is misleading people into thinking there is any other way to save this nation from the rich and powerful who want to rule you and your children with THEIR ideas about the economy, THEIR ideas about morality, THEIR ideas about what you can and cannot do without their "license", THEIR ideas about who WE are and what WE should be allowed to have and enjoy.

The Rule of Law and due process ... not rebellion, not politics, not your vote at the polls. The Rule of Law and due process are the "Power of the People", so PLEASE TAKE HOLD OF THIS AND TELL OTHERS.

When you know how to use this power, you have Liberty. Without it you do not! When you teach this power to the children, you secure Liberty for future generations. The People perish for lack of knowledge.

The MOST IMPORTANT THING TO KNOW RIGHT NOW is how to use The Rule of Law and due process to secure Liberty through Justice.

NOTHING ELSE WORKS!

If you agree, tell others.

If you don't agree, perhaps you'd be happier living in some other country where they jail or kill people who disagree with their leaders, instead of being able to SUE and be heard and call witnesses and make a public record of your grievances.

The Rule of Law and due process are the "Power of the People".

Get yours before supplies run out.
