Sailing

Dear Friends of Justice ...

Thank you for your interest in our work promoting Justice Education *for EVERYONE*.

Our Ship of State is being driven toward a rocky shore by hateful winds of falsehood and misinformation of every kind imaginable.

She sails with no reliable compass, no log, no chart, nor any certain destination.

Our Nation is *lost*.

Our children and those of future generations are imperilled.

The Rules of the Road that sailors understand and the US Coast Guard requires boats and ships to follow prevent collisions at sea, promote safe passage, and promise success for those who leave our shores to cross the briny deep.

When it comes to navigating our Ship of State, the people we've elected to "rule" us all are breaking Rules, *because you don't know the simple Rules that make civilization possible!*

Rules that judges, lawyers, and legislators are supposed to follow *but too often ignore*.

The cure is for EVERYONE to know the Rules that secure Good Government, Rules that are fair, Rules that require your rulers to secure Liberty and Justice for ALL of you ... not just the rich and powerful who can afford to hire lawyers.

There is absolutely NO reason why you and your children should remain ignorant of the Power of the Rules.

NO reason why you should have to hire an expensive lawyer to force local school board members to answer questions *under oath*, when you suspect they are teaching things your tax dollars should not be paying for.

NO reason why you should not be able to force the Division of Child Services to answer questions *under oath*, when they take children from their parents and refuse to explain why.

NO reason why you should not know how to force judges to make your enemies produce documents and respond to questions *under oath*, when you are sued by liars and thieves.

The Rules aren't hard to learn.

The Rules are not rocket science.

⌘ *A Thing Similar is Never Exactly The Same* ⌘

They are NOT difficult to learn.

Your #1 Right is the right to *know the Rules that others use to rule YOU.*

We promote Justice Education for adults and children.

We empower Americans.

We give YOU the Power you need to control those who are controlling YOU at present, because YOU don't yet know how to control *them!*

The US Coast Guard "Rules of the Road" exist *to keep sailors safe!*

The Rules of Justice should be keeping *all of us safe!*

Instead they are being abused by lawyers and judges and legislators who ignore YOUR right to know and use these Rules.

Nobody told YOU what the Rules are!

Don't like rules?

Try to imagine society without them!

We the People *do not know the Rules that others use to rule us!*

Our children are taught nothing about them.

Is any of this sinking in?

The Rules will save her, when you and your children know what the Rules are and how to use them to control evil-minded people and get Justice for yourselves and those you love.

American Justice Foundation® promotes Justice Education for ALL of you.

Justice is essential to Good Government.

Justice favors those who know the Rules.

Rights you can't enforce are merely promises.

Promote Justice Education.

American Justice Foundation® ... a non-profit trust teaching the Rules of Justice.
